Title

Maori descent by meshblock (2013 Census)

Abstract

This Data service is a prototype model to enable people to find Statistics NZ data in geographic and other formats. More datasets are being added progressively. We welcome feedback at communications@stats.govt.nz 2013 Census meshblock dataset contains counts at meshblock levels for selected variables from the 2013 Census. The geographies correspond to 2013 Census boundaries. The counts are at the highest level of each variable's classification. Notes: Confidentiality rules have been applied to all cells in this table, including randomly rounding to base 3. -999 indicates cells have been suppressed for confidentiality reasons. -995 indicates cells that could not be calculated.

Purpose

This dataset is the definitive set of meshblock boundaries for 2013 as defined by Statistics New Zealand.
