### Abstract

This dataset is the definitive set of regional council boundaries for 2019 as defined by the regional councils and/or Local Government Commission and maintained by Stats NZ. This version contains 16 regional councils. The regional council is the top tier of local government in New Zealand. There are 16 regional councils in New Zealand (defined by Part 1 of Schedule 2 of the Local Government Act 2002). Eleven are governed by an elected regional council, while five are governed by territorial authorities (the second tier of local government), who also perform the functions of a regional council and are known as unitary authorities. These unitary authorities are Auckland Council, Nelson City Council, and Gisborne, Tasman, and Marlborough District Councils. The Chatham Islands Council also performs some of the functions of a regional council, but is not strictly a unitary authority. Unitary authorities act as regional councils for legislative purposes. Regional councils are responsible for administering many environmental and transport matters, such as land transport planning and harbour navigation and safety. Regional councils were established in 1989 after the abolition of the 22 local government regions. The Local Government Act 2002 requires the boundaries of regions to conform, as far as possible, to one or more water catchments. When determining regional boundaries, the Local Government Commission considered regional communities of interest when selecting which water catchments to include in a region. It also considered factors such as natural resource management, land use planning, and environmental matters. Some regional council boundaries are coterminous with territorial authority boundaries, but there are several exceptions. An example is Taupo District, which is geographically split between four regions, although most of its area falls within the Waikato Region. Where territorial local authorities straddle regional council boundaries, the affected area is statistically defined by complete regional councils. In general, however, regional councils contain complete territorial authorities. Auckland Council unitary authority was formed in 2010, under the Local Government (Tamaki Makarau Reorganisation) Act 2009, replacing the Auckland Regional Council and seven territorial authorities. The seaward boundary of any coastal regional council is

the twelve-mile New Zealand territorial limit. Regional councils are defined at meshblock, statistical area 1 (SA1), and statistical area 2 (SA2) levels. Regional councils included in the 2019 digital pattern are: Regional council code Regional council name 01 Northland Region 02 Auckland Region 03 Waikato Region 04 Bay of Plenty Region 05 Gisborne Region 06 Hawke's Bay Region 07 Taranaki Region 08 Manawatu-Wanganui Region 09 Wellington Region 12 West Coast Region 13 Canterbury Region 14 Otago Region 15 Southland Region 16 Tasman Region 17 Nelson Region 18 Marlborough Region 99 Area Outside Region Digital boundary data became freely available on 1 July 2007.

### Purpose

REGC2019\_V1\_00 is the major released version of the annually released regional council boundaries as at 1 January 2019 as defined by regional councils and/or Local Government Commission, and maintained by Stats NZ. This version contains 16 regional councils.
